

WaterForce hard hose irrigators

OCMIS VIR4 and VIR5

Model: VIR4, VIR5

Features:

- Water turbine or engine drive available
- Full hydraulic system – trolley, feet, drawbar, rotation and wheels
- Machine hydraulically lowers itself onto the ground and sits on its turntable base when operating
- Synchronised gearbox to allow for both low and high application rates
- Backup manual and PTO wind-in included
- Computer speed control for precision application
- Automatic water inlet shut-off valve
- Optional emptying compressor to reduce water weight for shifting
- Komet raingun technology
- Suitable to be fitted with WaterForce R30, R40, R50 or R64 linear booms*

Common sizes:

MODEL	HOSE DIAMETER	HOSE LENGTH
VIR4	90mm	380m to 500m
VIR4	100mm	330m to 390m
VIR4	110mm	300m to 350m
VIR5	100mm	450m to 500m
VIR5	110mm	400m to 470m
VIR5	125mm	320m to 380m
