

WaterForce hard hose irrigators

OCMIS VIR6 and VIR7

Model: VIR6, VIR7

Features:

- Water turbine or engine drive available
- Full hydraulic system – trolley, feet, drawbar, rotation and wheels
- Machine hydraulically lowers itself onto the ground and sits on its turntable base when operating
- Synchronised gearbox to allow for both low and high application rates
- Backup manual and PTO wind-in included
- Computer speed control for precision application
- Automatic water inlet shut-off valve
- Optional emptying compressor to reduce water weight for shifting
- Komet raingun technology
- Suitable to be fitted with WaterForce R50 or R64 linear booms*

Common sizes:

MODEL	HOSE DIAMETER	HOSE LENGTH
VIR6	100mm	600m
VIR6	110mm	500m to 550m
VIR6	125mm	400m to 440m
VIR7	100mm	650m
VIR7	110mm	550m to 600m
VIR7	125mm	450m to 500m
VIR7	140mm	380m
